GURUNANDA'S ESSENTIAL OIL DIFFUSER

Simply fill with water and add a few drops of one of your favorite **GuruNanda Essential Oils.** The silent **Ultrasonic Diffuser** creates vibrations that are carried to the surface where 100% Pure Oil is floating. The oil floating on top of the water gets broken down and then diffused into the air. Since the oils aren't heated, their natural unadulterated fragrance fills the surrounding space. Color-changing **Mood Lights**™ help create a soothing and comforting environment.

EXPERIENCE NATURE AT HOME™

WHAT IS AROMATHERAPY?

Our modern lifestyles are often filled with stress brought on by physically, emotionally, and mentally demanding activities. **GuruNanda's Aromatherapy** turns distress to de-stress by bringing the serenity of aromatherapy directly into your home. The result is an aromatic paradise where you can reap the **endless benefits of aromatherapy** by simply breathing in. Aromatherapy utilizes naturally extracted aromatic essences from flowers, trees or seeds to promote the health of the body, mind and spirit. **GuruNanda Aromatherapy** uses silent, ultrasonic waves to diffuse water with your choice of essential oil or essential oil blend. Since **GuruNanda Ultrasonic Aroma Diffusers** do not generate heat, the quality of the oil properties is never damaged nor compromised.

The LED light changes to a variety of **soothing colors.** To ensure optimal safety, the unit will turn off automatically when the water runs low, or after 3 hours of use. Looking for longer usage? The intermittent mist function allows you to enjoy aromatherapy for up to 6 hours!

GuruNanda Aromatherapy doesn't just fill your space with incredible fragrances; it awakens your senses and provides balance to your life. That balance creates the perfect environment to help our bodies heal and remain healthy. Allow **GuruNanda Aromatherapy** to provide a unique experience that is restorative, gently clarifying, and meditative.
